EDUCATION

Lakireddy BaliReddy College of Engineering	BTech CSE : 9.5CGPA	2024 – 2025
Sri Saraswathi Junior College	Intermediate MPC : 96.4%	2022 – 2024
ST. Mark’s English Medium High School	SSC : 95.5%	2021 – 2022

SUMMARY

Computer Science undergraduate with strong knowledge of **Python, Java, C, HTML, CSS, JavaScript, SQL, Object-Oriented Programming (OOP), Data Structures, Algorithms and Software Development**. Experienced in designing and developing **GUI applications** and presenting innovative technical projects. Passionate about **Full Stack Development, Software Engineering, Artificial Intelligence, Problem Solving, and Application Development**. Strong analytical, communication, collaboration, and technical presentation skills with a commitment to continuous learning and building scalable software solutions.

TECHNICAL SKILLS

Languages	: C, Python, Java, Javascript, SQL
Web	: HTML5, CSS3, JavaScript
Core	: OOP, Data Structures, Problem Solving, Algorithms (Basics)
Tools	: GitHub, VS Code
Database	: MySQL
AI/Concepts	: LLMs (Llama 3.3 70B), API Integration, Client–Server Architecture, Prompt-based AI Systems

PROJECTS

Basic AI Chatbot

- Built an intelligent chatbot using **Llama 3.3 70B LLM** for structured conversational responses
- Designed a responsive **web frontend with asynchronous communication to Python backend**
- Implemented **API-based request handling and prompt processing**
- Demonstrates skills in **AI integration, full-stack development, and NLP-based applications**

Flash Card Study App

- Developed an interactive learning app using **HTML, CSS, JavaScript**
- Features include **create, edit, delete, and review flashcards**
- Added **progress tracking for effective learning**
- Focused on **DOM manipulation and responsive UI design**

Address Book System

- GUI-based application using **Python and PyQt**
- Supports **add, edit, delete, and search contacts**
- Strengthened skills in **desktop application development and event handling**

CERTIFICATIONS

- **ServiceNow Virtual Internship** – ServiceNow + SmartBridge
- **HTML, CSS, JavaScript** – Infosys Springboard
- **Web Development Fundamentals** – IBM SkillsBuild
- **Cybersecurity Essentials** – Cisco Networking Academy
- **The Joy of Computing Using Python** – NPTEL
- **Python Essentials** – Cisco Networking Academy
- **Python Programming** – Infosys Springboard
- **C Programming Essentials** – Cisco Networking Academy

ACHIEVEMENTS

- **3rd Prize – Techno Vision 2k25 Event:** Recognized for innovative research on sensor-based liquid identification
- **Selected Candidate– Smart India Hackathon (College Level):** Developed a technical solution for advanced sensor-based liquid detection
- **Ideathon Recognition – Lakshya 2K26:** Proposed a creative portable safety monitoring device for alcohol detection.
- Successfully implemented a responsive web interface and GUI-based application to demonstrate practical coding skills.
- Demonstrated strong problem-solving, research, and conceptualization skills in environmental and safety-focused projects
